

ABSTRACT OF THE DISCLOSURE

Disclosed are an ornamental hairpiece attached to human real hair or animal real fur such as that of a dog, and a method for manufacturing the same. The ornamental hairpiece includes a wig unit having a plurality of strands made of one material selected from the group consisting of artificial hair or fur made of a synthetic resin, human real hair and animal real fur, and a connection unit for connecting the wig unit to user's real hair, thereby being used for a long period of time.
